bsi.

Certificate of Registration

INFORMATION SECURITY MANAGEMENT SYSTEM - ISO/IEC 27001:2022

This is to certify that:

Hangzhou Hikvision Digital Technology
Co., Ltd.
No. 555, Qianmo Road
Binjiang District
Hangzhou
Zhejiang
310052
China

Holds Certificate Number: IS 755587

and operates an Information Security Management System which complies with the requirements of ISO/IEC 27001:2022 for the following scope:

Please see scope page.

For and on behalf of BSI:

Matt Page, Senior Vice President, EMEA Assurance

Original Registration Date: 2021-12-03   Effective Date: 2024-12-03
Latest Revision Date: 2024-11-19   Expiry Date: 2027-12-02

Page: 1 of 56

...making excellence a habit.™

Registered Scope:

The provision of design, development, production, sales, installation, commissioning and technical support of hardware of Intelligent security product. The provision of design, development, sales, maintenance and technical support of software of Intelligent security product.
Hardware includes:
front-end camera product series, thermal imaging product series, back-end video recorder product series, storage product series, display product series, control product series, wireless transmission product series, intelligent traffic product series, access control equipment series, intercom equipment series, security check product series, personnel access product series, alarm product series, mobile product series, conference tablet product series, intelligent parking product series, vehicle (load) product series, data center product series, automotive electronic product series, intelligent medical product series, intelligent fire product series, traditional fire product series, network security product series.
Software includes:
Basic platform software: cloud computing platform product series, cloud storage platform product series, video fusion empowerment platform product series, industry intelligent application platform product series, physical information fusion data resource platform product series, integrated operation and maintenance service platform product series, intelligent perception networking platform product series, AI Open Platform.
General platform software: visualization command platform product series, supervision platform product series, content publishing platform product series, general security platform product series, alarm management platform product series, intelligent parking platform product series, fire management platform product series, fusion cloud product series, vehicle electronic software product series, vehicle networking platform product series, HikIoT, visualization command platform product series (Medical vision products, digital medical products).
Industry platform software: customised product range for basic and universal platforms, including Hik-Cloud product series (Hik-Cloud Chain Enterprise, Hik-Cloud Education, Hik-Cloud Community, Hik-Cloud Open Platform, Hik-Cloud Lite, Hik-Cloud Express, Hik-Cloud Intelligent IoT) .
This is in accordance with the Statement of Applicability version 03.02, dated July.8 2024.
Registration Address: No. 555 Qianmo Road, Binjiang District, Hangzhou.

Original Registration Date: 2021-12-03   Effective Date: 2024-12-03
Latest Revision Date: 2024-11-19   Expiry Date: 2027-12-02

Registered Activities

The provision of design, development, sales, installation and commissioning of hardware of Intelligent security product. The provision of design, development, sales, maintenance and technical support of software of Intelligent security product.

Hardware includes: front-end camera product series, thermal imaging product series, back-end video recorder product series, storage product series, display product series, control product series, wireless transmission product series, intelligent traffic product series, access control equipment series, intercom equipment series, security check product series, personnel access product series, alarm product series, mobile product series, conference tablet product series, intelligent parking product series, vehicle (load) product series, data center product series, intelligent fire product series, traditional fire product series, network security product series.

Software includes:

Basic platform software: cloud computing platform product series, cloud storage platform product series, video fusion empowerment platform product series, industry intelligent application platform product series, physical information fusion data resource platform product series, integrated operation and maintenance service platform product series, resource management scheduling platform product series, intelligent perception networking platform product series, AI Open Platform.

General platform software: Visualization command platform product series, supervision platform product series, content publishing platform product series, general security platform product series, alarm management platform product series, intelligent parking platform product series, fire management platform product series, convergence cloud product series and HikIoT.

Industry platform software: including localised platform and cloud platform. the localised platform is used in: public security, traffic police, transportation, justice, government, culture, education and health, intelligent building, energy metallurgy, industrial and commercial enterprises, financial services and other industries, and the cloud platform includes Hik-Cloud product series (Hik-Cloud Chain Enterprise, Hik-Cloud Education, Hik-Cloud Community, Hik-Cloud Open Platform, Hik-Cloud Lite, Hik-Cloud Express, Hik-Cloud Intelligent IoT) and HikIoT.

The provision of sales of hardware of Intelligent security product. The provision of sales of software of Intelligent security product.
Hardware includes:
front-end camera product series, thermal imaging product series, back-end video recorder product series, storage product series, display product series, control product series, wireless transmission product series, intelligent traffic product series, access control equipment series, intercom equipment series, security check product series, personnel access product series, alarm product series, mobile product series, conference tablet product series, intelligent parking product series, vehicle (load) product series, data center product series, automotive electronic product series, intelligent medical product series, intelligent fire product series, traditional fire product series, network security product series.
Software includes:
Basic platform software: cloud computing platform product series, cloud storage platform product series, video fusion empowerment platform product series, industry intelligent application platform product series, physical information fusion data resource platform product series, integrated operation and maintenance service platform product series, intelligent perception networking platform product series, AI Open Platform.
General platform software: visualization command platform product series, supervision platform product series, content publishing platform product series, general security platform product series, alarm management platform product series, intelligent parking platform product series, fire management platform product series, fusion cloud product series, vehicle electronic software product series, vehicle networking platform product series and HikIoT.
Industry platform software: Customised product range for basic and universal platforms, including Hik-Cloud product series (Hik-Cloud Chain Enterprise, Hik-Cloud Education, Hik-Cloud Community, Hik-Cloud Open Platform, Hik-Cloud Lite, Hik-Cloud Express, Hik-Cloud Intelligent IoT).

Registered Activities

The provision of sales of hardware of Intelligent security product. The provision of sales of software of Intelligent security product.
Hardware includes: front-end camera product series, thermal imaging product series, back-end video recorder product series, storage product series, display product series, control product series, wireless transmission product series, intelligent traffic product series, access control equipment series, intercom equipment series, security check product series, personnel access product series, alarm product series, mobile product series, conference tablet product series, intelligent parking product series, vehicle (load) product series, data center product series, automotive electronic product series, intelligent medical product series, intelligent fire product series, traditional fire product series, network security product series.
Software includes:
Basic platform software: cloud computing platform product series, cloud storage platform product series, video fusion empowerment platform product series, industry intelligent application platform product series, physical information fusion data resource platform product series, integrated operation and maintenance service platform product series, intelligent perception networking platform product series, AI Open Platform.
General platform software: visualization command platform product series, supervision platform product series, content publishing platform product series, general security platform product series, alarm management platform product series, intelligent parking platform product series, fire management platform product series, fusion cloud product series, vehicle electronic software product series, vehicle networking platform product series and HikIoT.
Industry platform software: Customised product range for basic and universal platforms, including Hik-Cloud product series (Hik-Cloud Chain Enterprise, Hik-Cloud Education, Hik-Cloud Community, Hik-Cloud Open Platform, Hik-Cloud Lite, Hik-Cloud Express, Hik-Cloud Intelligent IoT).
